The Basics

What is the Administrative Window?

The Administrative Window is a designated timeframe for applicants to update EPC profiles in preparation for the upcoming FCC Form 471 Application Filing Window. Once the Administrative Window closes, profiles are locked down for use by all applicants.

During the Administrative Window, independent schools and school districts must update their EPC profiles with student count data (enrollment and NSLP numbers) and must make any organization relationship changes such as the list of schools belonging to a district.

Student count data is reported for two purposes:

1. to calculate your E-Rate discount
2. to calculate your Category 2 Budget

It is extremely important that you make your profile updates during the Administrative Window as it is generally impossible to do so once the window closes.

**FY2024 Administrative Window:
October 24, 2023 – January 12, 2024**

What if my district's organizational structure has changed?

Contact the state E-Rate coordinator for assistance in the following situations:

- A school district has split:
schools that have left one school district will need to be detached and moved to their new district
- School districts have merged:
schools will need to be attached to their new parent school district
- A new school has opened:
a new billed entity number will need to be created for any new schools

Maine State E-Rate Coordinator for Schools:

Anne Perloff

(207) 581-3584

What should I be updating?

Changes that can be made during the Admin Window

Account Administrator – verify this is the appropriate person and replace with a new user if necessary

Update entity contact information, FCC registration number

Update user permissions

Add new entities or close entities via a customer service case

Update entity relationships (such as child schools)

Update entity sub types

Update student counts

Request an increase to your Category 2 Budget

School Districts

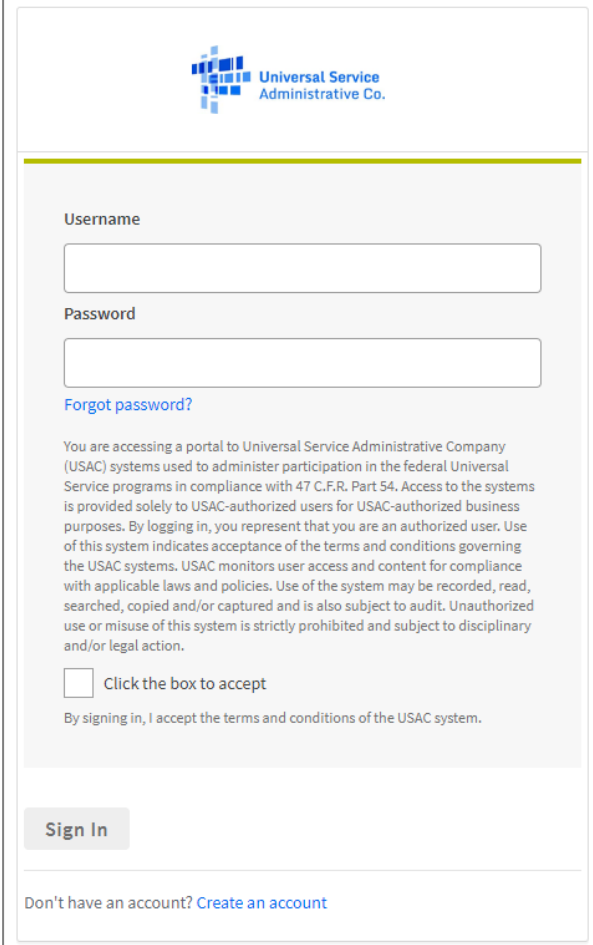

What data should districts update?

School districts report student counts for two purposes:

1. To calculate your district's E-Rate discount percentage → **REQUIRED ANNUALLY** ←
 - entered on the summary page for each school in your district
2. To update data for your district's Category 2 Budget
 - **REQUIRED FIRST YEAR APPLYING FOR C2** ←
 - **OPTIONAL SUBSEQUENT YEARS** ←
 - either entered per school or as an aggregate
 - if your district has 10 or fewer sites: enter C2 data for each school
 - if your district has 11 or more sites: enter C2 data as an aggregated, single number for the entire district
 - you only need to update these student counts once for your 5 Year C2 Budget
 - If you previously entered budget data for the FY2021 – FY2025 cycle, you are not required to update it
 - If you wish to – if your student data has fluctuated to your benefit, such as an increased student enrollment – you **may** request to update your district C2 budget data

① Navigate to
<https://forms.universalservice.org/portal>

② Log into One Portal with your username
(your full email address) and One Portal password

The screenshot shows the login page for the Universal Service Administrative Co. (USAC) portal. At the top right is the USAC logo and name. Below a green horizontal line are two input fields: 'Username' and 'Password'. A blue link 'Forgot password?' is positioned below the password field. A paragraph of terms and conditions follows, starting with 'You are accessing a portal to Universal Service Administrative Company (USAC) systems...'. Below the text is a checkbox labeled 'Click the box to accept' and a line of text: 'By signing in, I accept the terms and conditions of the USAC system.' At the bottom left is a grey 'Sign In' button. At the bottom right is a blue link: 'Don't have an account? [Create an account](#)'.

- ③ Complete the steps as prompted to obtain and enter a one-time verification code
- ④ Once you have successfully logged into One Portal and are viewing its dashboard, access EPC by clicking on the gray block for “E-Rate Productivity Center (EPC)”

The screenshot shows the One Portal dashboard. At the top, there is a yellow notification banner with an information icon and text: "In accordance with the Supply Chain orders, new certifications have been added to the following forms: RHC - FCC Form 463 and the Telecom invoice, E-rate - FCC Form 473, and High Cost & Lifeline - FCC Form 481. Service providers are required to submit these annual certifications. For additional information, visit the [USAC Supply Chain](#) page." Below the banner, the dashboard is divided into three main sections: "Upcoming Dates" (with a calendar icon and the text "No upcoming dates found."), "Schools and Libraries" (with an upward arrow icon), and "Help?" (with a "Send us a message" link and "Call us (888) 641-8722"). A red arrow points from the top right of the slide to a gray block within the "Schools and Libraries" section. This block is titled "E-Rate Productivity Center (EPC)" and contains text explaining that E-Rate Program participants use the EPC to manage program processes, receive notifications, and contact customer service. It also mentions that E-Rate invoices (FCC Form 472/BEAR and FCC Form 474/SPI, EPSI) for FY 2016 or later and all FCC Form 473/SPACs can now be submitted in the EPC. A second gray block below it is titled "E-Rate System Consolidation" and explains that the E-Rate Legacy system is now down and will only be available for submission for 473 SPAC Forms and invoices 2015 and prior.

Entering Category 2 Enrollment Data in the EPC Profile *By School*

→ REQUIRED FIRST YEAR APPLYING FOR C2 IN THE CURRENT BUDGET CYCLE ←
→ OPTIONAL SUBSEQUENT YEARS ←

Notes:

For a district with 10 or fewer schools, EPC can calculate a higher C2 budget by utilizing the funding floor if any of your schools has less than 150 students. Use the “by school” method to report your student counts for each school in order to take advantage of the higher budget calculation.

If you previously entered C2 enrollment data for the FY2021 – FY2025 cycle, you are not required to update it unless you wish to in order to take advantage of increased enrollment numbers.

When should I use this method?

Districts with 10 or fewer sites can calculate their C2 budgets on a **per-school basis** by entering student counts separately for each eligible site

Doing so allows you to take advantage of the higher budget amount for each building (the funding floor VS the budget multiplier * enrollment)

**district
with 10 or
fewer sites >>>**

School Districts:

Entering Category 2 Enrollment Data in the EPC Profile *By Aggregate*

→ REQUIRED FIRST YEAR APPLYING FOR C2 IN THE CURRENT BUDGET CYCLE ←
→ OPTIONAL SUBSEQUENT YEARS ←

Notes:

For a district with 10 or fewer schools, EPC can calculate a higher C2 budget by utilizing the funding floor if any of your schools has less than 150 students. If you opt to report your student count as one district-wide aggregate number, EPC will not allow you to do this.

If you previously entered C2 enrollment data for the FY2021 – FY2025 cycle, you are not required to update it unless you wish to in order to take advantage of increased enrollment numbers.

When should I use this method?

Choose this option if your district has 11 or more sites. Using this method, you only need to enter the total number of students throughout the district without detailing the precise number for the individual schools. Your C2 budget will be calculated using the district's **aggregate student count** and the aggregate funding floor (the funding floor * the aggregate number of schools).

**district
with 11 or
more sites >>>**

Words of Caution:
*This is not advisable for
districts with 10 or
fewer schools!*

*If you have 10 or fewer
sites, you can choose
this method, however,
your budget might
calculate as a lower
amount than what you
are actually entitled to.*

the district C2 budget is the greater of these two calculations

Districts: C2 Data By Aggregate

Once you have chosen to list C2 counts as a district aggregate, you cannot update individual school C2 counts without selecting the option for “A number for each school in the district” on the district’s summary page

If the “One number for my whole district” option has been selected, the school summary pages will display the following message:

Category Two (C2) Budget Information

Your school district ([116 - School District 6](#)) manages the student count for its Category Two budget as one number for the district. You can manage it in the school district's entity record.

Click on the link for the school district to go to the district’s summary page

School Districts: Requesting a Replacement C2 Budget

→ OPTIONAL ←

Note:

If you previously entered C2 enrollment data for the FY2021 – FY2025 cycle, you are not required to update it unless you wish to in order to take advantage of increased enrollment numbers to increase your C2 budget.

You can choose to request a budget update in any or all funding years within the budget cycle.

Be aware that unless you specifically request a budget recalculation, the C2 budget student count for the school district will remain fixed throughout the cycle.

Am I required to do this?

To simplify the C2 budget system, once you have validated your C2 enrollment data, your C2 budget is fixed until the end of the 5 year budget cycle (FY2021 – FY2025) unless you specifically request an updated replacement budget.

- If you have no need or desire to update your C2 budget or if this is your first year applying for C2 funding in the current budget cycle, then you do not need to do anything additional to your C2 enrollment number.
- If you want to adjust your C2 budget during the current budget cycle because student enrollment has increased or you added a child entity, you will need to complete the steps outlined in the following pages to request a recalculation of your budget.

How do I do change my C2 budget?

Step 1: Modify your billed entity details

- Add or remove dependent school entities
- Update C2 budget student counts

***Note:** You may be able to update the C2 budget fields during the filing window, but plan on completing this step as part of the Administrative Window tasks.*

Step 2: Then submit a request for a replacement budget based on that enrollment

***Note:** Only full-rights users can request replacement budgets. Partial-rights users can update organization details, but only users with full rights permissions will be able to update the C2 budget.*

If you fail to submit the request during the Administrative Window, you can also do it via a Receipt Acknowledgment Letter (RAL) after you certify your Form 471, but it is far better to complete this process before the Administrative Window closes.

Districts: Replacement C2 Budget

① Complete the steps outlined in the appropriate “School Districts: Entering Category 2 Enrollment Data in the EPC Profile” section of this guide (by school or by aggregate) to modify the C2 budget enrollment numbers entered in your profile.

Once you click on the “SUBMIT” button, you will see a message describing the next step. At this point you have updated the numbers but still need to request a replacement budget based on those numbers.

② Click on the “OK” button

Districts: Replacement C2 Budget

How to get there:

What data should schools update?

Independent schools report student counts for two purposes:

1. To calculate your school's E-Rate discount percentage → REQUIRED ANNUALLY ←
2. To update data for your school's Category 2 Budget
→ REQUIRED FIRST YEAR APPLYING FOR C2 ←
→ OPTIONAL SUBSEQUENT YEARS ←
 - you only need to update these student counts once for your 5 Year C2 Budget
 - If you previously entered budget data for the FY2021 – FY2025 cycle, you are not required to update it
 - If you wish to – if your student data has fluctuated to your benefit, such as an increased student enrollment – you **may** request to update your school C2 budget data

Independent Schools: Requesting a Replacement C2 Budget → OPTIONAL ←

Note:

If you previously entered C2 enrollment data for the FY2021 – FY2025 cycle, you are not required to update it unless you wish to in order to take advantage of increased enrollment numbers to increase your C2 budget.

You can choose to request a budget update in any or all funding years within the budget cycle.

Be aware that unless you specifically request a budget recalculation, the C2 budget student count for the school will remain fixed throughout the cycle.

Am I required to do this?

To simplify the C2 budget system, once you have validated your C2 enrollment data, your C2 budget is fixed until the end of the 5 year budget cycle (FY2021 – FY2025) unless you specifically request an updated replacement budget.

- If you have no need or desire to update your C2 budget or if this is your first year applying for C2 funding in the current budget cycle, then you do not need to do anything additional to your C2 enrollment number.
- If you want to adjust your C2 budget during the current budget cycle because student enrollment has increased, you will need to complete the steps outlined in the following pages to request a recalculation of your budget.

How do I do change my C2 budget?

Step 1: Update your C2 budget student enrollment

Note:

You may be able to update the C2 budget fields during the filing window, but plan on completing this step as part of the Administrative Window tasks.

Step 2: Then submit a request for a replacement budget based on that enrollment

Note:

Only full-rights users can request replacement budgets. Partial-rights users can update organization details, but only users with full rights permissions will be able to update the C2 budget.

If you fail to submit the request during the Administrative Window, you can also do it via a Receipt Acknowledgment Letter (RAL) after you certify your Form 471, but it is far better to complete this process before the Administrative Window closes.
